Laddes: I am informed that you made the arrangements for hoboring the memory of the United States soldiers, whose graves are in our city orimeter;

A paper published in this city has asserted that those who plaused the proposed caremony intended to insult the white nations of this city. Knowing that you are Christian Indies, and believing that you would not do an act so unchristian and lass. I sak respectfully that you inform not of the main reasons that prompted you to become the memory of our brave union soldiers, and that you will permit me to publish your reply.

Monrpeire Vt. Tuesday, May 15, 1866.

A fire, attended with shocking less of life and a heavy less of property, occurred at North Royalton, Vermont, last night, upon the premises of Mr. Lyman Burbank. The house was occupied by Mr. Burbank, a hired man named Ballow, an adopted daughter of Mr. B., and Miss Dickerman of Tunbrige, who was temporarily staying there. All were sleeping up stairs at the time.

the time.

Miss Dickerman was the first to discover that the house was in flames, and immediately gave the alarm. Finding it too late to descend the stairs, Mr. Ballow jumped out of the window and procured a ladder to enable the others to make their escape, but on returning he could see nothing of the two girls, and could only save the body of Mr. Burbank, who had been suffocated by the heat and smoke. Nothing was afterward found of the girls but their bones.

The house, together with outbuildings, containing cattle, sheep horses and hogs, were entirely consumed. Mr. Burbank was a drover and was well known. The fire is reported to have originated from a defective fire-place which had been used the day previous.

Fire at Salem, Mass,-Loss, \$75,000.

A fire occurred here last night, which destroyed Lynde block, the old Saltenstall School-house, together with serval buildings on Essex and Liberty-sts. The East India Marine Hall building was also greatly damaged, but the valuable collection of curiosities was saved. Lynde block was owized by Francis Peabody. The loss of property is estimated at \$75,000; it was mostly insured.

SYRACUSE, N. Y., Toesday, May 15, 1866.

A fire destroyed a wooden building owned and occupied by the Sisters of Charity, and two outhouses owned by the Roy. Mr. O'Harra: The main building, belonging to the Sisters, was saved. Loss \$2,000; probably insured.

It is understood that the Surgeon of the Post has complied with the instructions of President Johnson to furnish a special report upon the physical condition of Jefferson Davis. The nature of the report has not been made known; but there is reason to believe that it does not speak in very hopeful terms of his condition, and argos a less rigid system of confinement if his restoration to perfect health is at all desired.

REDUCTION OF THE COAST SQUADRONS.

In purenance of orders received from the Navy Department our coast squadrons, known respectively as the Atlantic and Guif Squadrons, are being rapidly reduced. Within the past month ne less than four vessels have been detached from the Guif Squadron and ordered to various Northern-ports to be laid up or soid, as may be deemed best. The vessels selected for recoval are generally those which have seen the most active service, and before another month it is expected that more than half the vessels now doing duty in the above-mentioned squadrons will be laid up in ordinary or sold. A large-sale of onserviceable war vessels will shortly take place at the Brookin Navy-Yand, to which a majority of the vessels to be laid up will be sent. While our hous squadrons are being for goly refused the Navy Department has steadily kept making increase to the shundrons assigned to duty in foreign waters, and even now our foreign fleets bear favorable comparison with those of the great naval powers of Europe. There are now over 30 vessels fitting out for foreign service, a large number of them being indynaded for the South Pacific and Asiante Squadrons.

and my information is entitled to belief, what a triffing value must this so-called Republican Government set upon the territory of Mexico. Upon such a basis the whole country from the Pacific to the Guif of Mexico and from the Rio Grands to Gustemala might be estimated as worth less than \$200,000 These facts are enough to show either that the transaction is an enormous speculation on the part of interested parties him, which the Junrist agents are directly interested, or that the anid Junrists have but little confidence in the ultimate success of their cause.

in which the Juarist agents are directly interested, or that the aid Juarists have but little confidence in the ultimate success of their cause.

In whatever light it is viewed, it is certain that the people of Mexico whom these "Liberal" authorities pretend to represent, would not, if consulted on the subject, consent to the proceeding, and were a national vote taken, not one in a thousand wantle be found to tavor it. It is true the "sale" does not profess to transfer any political rights to the parchasers, who, in the event of their occupying this immense territory as proprietors, would still be under the law of Mexico; but no one, who understands the aggressive spirit of Americans to the southward, can doubt that the occupancy of Lewer California under this grant of land, would be only preliminary to its becoming American in spirit and in fact, and eventually, like Terras, ending in its being wrested from the hadion to which it rightfully belongs.

If the preservation of the rights and liberties of Mexico is the real question at issue between the Imperialists and the Liberais, upon which party should gay fail the odium of sacrificing the true interests of that distracted country. Here is a so-called "Government" bartering for a song one of the most valuable portions of the national territory, the teansaction originating with a number of shrewd speculators, such as are always ready to take advantage of the nocensities of nations as of individuals. Allow me to contrast this with the policy of Maximilian, who, upon his arrival at Mexico, solemnly avveen his determination to preserve the integrity of the national territory against all eneroachments.

During the War of the Rebellion in our country, Lonis Napoleon was deeply interested in a scheme to colonce the great northern departments of Senora, Sitaloa and Chihmahna with Confederates, who were to develop the rich misson is those regions, and thus, by the acquisition of those territories by France, eventually defray the expenses of the French occumation.
